

Senior Quality & NPI Engineer

Middlesex Aerospace is a strategic market leading British aerospace manufacturer and global aerospace engineering company and we pride ourselves on delivering excellence.

Do you believe you are self-motivated and able to work independently or as part of a team? Do you have good attention to detail? Are you enthusiastic, adaptable with good interpersonal skills?

This could be the role for you!

Overview

Over the course of the last 18 months the business has been extremely successful in winning some exciting new business with new and existing customers. With this additional growth comes the need for developed process support. One of the key areas we want to focus on is ensuring that we can deliver the required quality for new products and processes entering the business.

Working in a team environment as a key resource in facilitating quality development and new product introduction. Reporting to the Quality Lead your responsibilities will include the management of quality driven projects, analysis of quality metrics along with an in-depth knowledge of major processes. A hard-working individual who works well under pressure and is quick to share gained knowledge to others. The role will require a high level of project planning whilst having great quality product and process awareness.

Principal Accountabilities

- To be the focal point for quality new production introduction. Liaising with all areas of the business to ensure a smooth process transition in line with business requirements.
- Project manage quality NPI requirements.
- As part of the senior quality team liaise with customers & suppliers on quality related matters ensuring customer focus and relationship building.
- Using lean mythologies such as 8D's and 5 why's to improve the quality of product and processes. A very high emphasis on proactive quality.
- A solid understanding of AS9100 and other major standards
- A solid understanding of customer and 3rd party specifications.
- To conduct and complete First Articles when required
- To complete and sign off concessions when required.
- Signing of release paperwork when required.
- Monitor risk management activities.

Desired Skills & Experience

- Experience of working to deadlines and achieving targets
- Experience of leading and managing set requirements
- A high standard of organization and planning
- A high level of attention to detail
- Superb written and communication skills
- Ability to work on their own initiative
- Willing to learn new skills and take part in a structured training program.
- A willingness to grow in the role and develop the position.
- Driven by metrics and use fact not opinions.
- Be approachable to new ideas and a good listener.
- Not be afraid to challenge or be challenged.
- An expectation that you will work additional hours to achieve the output required.
