

## **CNC Grinder Operator – Dayshift**

Middlesex Aerospace is a strategic market leading British Aerospace manufacturer and global aerospace engineering company and we pride ourselves on delivering excellence.

We are currently looking to recruit a Dayshift CNC Grinder Operator to join our team here on a full-time basis.

### **Principal Accountabilities:**

Preferably having a background in engineering or the acumen to learn, the outline role will be to

- Programme set and operate Studer CNC Grinder
- Grinding of Aerospace components ensuring parts are to drawing and required standards
- Use of various Inspection equipment ensure product meets quality/customer specifications
- Manual Grinding when required-Cylindrical, Internal, external and surface
- Confident performing multiple set ups per day
- Ensure the timely production of parts to pre-determined deadlines
- Take an active role in company initiatives such as continuous improvement, quality initiatives and new manufacturing systems and processes as they are introduced

### **Desired Skills & Experience:**

- Be an experienced Engineer/Machinist/Toolmaker with a proven track record
- Experience in manual machining operations
- Experience using Studer machines is desirable
- A team player who is self-motivated
- Ability to operate with minimal supervision
- Good time management and organisational skills.
- IT literate
- Methodical with good attention to detail.
- Training available, if required

### **Additional Information and Company benefits:**

- Competitive pay
- 25 days holiday plus Bank Holidays
- Contributions to a pension scheme with life insurance cover
- Flexible working opportunities
- Complimentary eyecare
- Discounts on personal tools
- Cycle to Work Scheme
- Weekly Hours: 40 Hours Monday-Friday

Closing date of Application – 30/03/22.
